This is a beautiful walk up the hills behind Largs, which requires a fair bit of climbing but with rewarding views over Largs and the islands. There are a number of walks in and around Largs so ask at the local Tourist Information Centre for details.

This path starts from Largs Pier and takes you through parts of the town before leading you past a farm and up the hill until you reach Greta Falls. The return is by the same route but the views on the return are particularly rewarding.
